PART A INDUSTRY ANALYSIS

EXECUTIVE SUMMARY	10
BACKGROUND	10
OBJECTIVES	10
THE EVOLVING LANDSCAPE – DRIVERS OF CHANGE - PRODUCT RELATED CRIME	11
SUMMARY OF KEY FIGURES	11
REPORT OVERVIEW & CONCLUSIONS	13
WHAT QUALIFIES AS BRAND PROTECTION?	13
THE MARKET FOR BRAND PROTECTION SOLUTIONS IS STILL LESS THAN 1% OF GLOBAL FINANCIAL LOSSES DUE TO PRODUCT RELATED CRIME	13
ANALYSIS OF CLASSES OF BRAND PROTECTION SOLUTIONS SUPPLIERS	14
REQUIREMENTS FOR A FULLY INTEGRATED END-TO-END BRAND PROTECTION SOLUTION	16
LEADING SUPPLIERS IN THE BRAND PROTECTION SOLUTIONS INDUSTRY	17
SUPPLIERS OF INTEGRATED END-TO-END SOLUTIONS	18
KEY EMERGING TRENDS	19
THE FUTURE IN BRAND PROTECTION BELONGS TO THE INTEGRATOR	19
ANCILLARY SERVICES – ESSENTIAL COMPONENTS FOR INTEGRATED SOLUTIONS	20
COMBINING SECURITY FEATURES IN A SINGLE LABEL.....	21
MULTI-FUNCTIONAL RFID / NFC TAGS – INCREASING COST EFFECTIVENESS.....	21
EAS ANTI-THEFT DEVICES HAVE BEEN SEEING RENEWED GROWTH	22
END USER ENABLED PRODUCT AUTHENTICATION WITH SMART PHONES – 2D BARCODES OR RFID?.....	22
MONITORING SERVICES THAT PROTECT BRANDS ON-LINE.....	23
TAMPER EVIDENCE – A GIVEN FOR BRAND PROTECTION	23
ACHIEVING PROFITABILITY AS A BRAND PROTECTION SOLUTION PROVIDER	24
SPECIALITY VERSUS COMMODITY PRODUCT.....	24
WHERE IN THE SUPPLY CHAIN?	24
KEY FIGURES – MARKET SIZING	25

1. INTRODUCTION	28
1.1 Background.....	28
1.2 Geographical Aspects	28
1.3 The Market for Brand Protection Solutions is still less than 1% of Global Financial Losses due to Product Related Crime	30
1.4 Numerous Points to Infiltrate a Legitimate Supply Chain with Counterfeit Goods	31
1.5 Vertical End User Markets that are Most Targeted	32
1.6 Counterfeiting and Piracy	33
1.6.1 Counterfeiting and Piracy - Forgery/Alteration Fraud	33
1.6.2 Counterfeiting and Piracy - Copy and Look-alike Products	34
1.6.3 Counterfeiting and Piracy - Parallel Trading, Grey Markets and Diversion	34
1.6.4 Counterfeiting and Piracy - Unauthorised Distribution, Back Door Trading and Over-runs	36
1.6.5 Counterfeiting and Piracy – Dilution, Substitution refilling and remarking	36
1.7 Tampering, Retail / Supply Chain Theft, Returns Fraud.....	37
1.7.1 Tampering	37
1.7.2 Retail and Supply Chain Theft	38
1.7.3 Returns Fraud	39
1.8 Driving Forces in Product Related Crime	40
2. THE COMPETITIVE ENVIRONMENT – DIFFERENT TYPES OF SUPPLIERS IN THE BRAND PROTECTION INDUSTRY	43
2.1 Three Classes of Supplier of Brand Protection Solutions	43
2.2 Leading Packaging / Label converters / Security Printers – Radar Mapping	43
3. MOVING TOWARDS FULLY INTEGRATED END-TO-END BRAND PROTECTION SOLUTIONS.....	46
3.1 The Way Forward in Brand Protection is for Integrated End-to-End Solutions	46
3.2 Leading Companies – Suppliers of Integrated Brand Protection Solutions	48
3.3 Not all Suppliers of Integrated Solutions are Packaging / Label Converters or Security Printers	49
3.4 A Framework for Analysis - A Layered Approach - 1st, 2nd & 3rd Levels of Defense	50
3.4.1 1st, 2nd & 3rd Levels of Defense.....	50
3.4.2 A Layered Approach	50
3.4.3 A Combination of Security Functions & Features.....	51
3.4.4 1 st , 2 nd & 3 rd Level Brand Protection Technologies.....	52
3.5 Ancillary and Support Services for Integrated End-to-End Brand Protection Programmes	53
3.5.1 Leading Providers of Inspection Services and the like	55

Brand Protection & Tamper Evident Solutions - Companies & Technologies

3.5.2	Risk Management Assessment can contribute to more effective Brand Protection Strategies .	55
3.5.3	Legal aspects - Enforcement and Protection of Intellectual Property (IP)	56
3.5.4	Securing the Supply Chain - Chain of Custody Requirements	56
3.5.5	Introducing a simple method of Authentication & Validation for Customs Inspection	57
3.5.6	Offering an Inspection Tool that can Support Legal Seizures.....	58
3.5.7	Inspection Team Requirements - Protect the Product as well as the Packaging	58
3.5.8	Providing assurance to end users – Responsibility for ‘Due Care’ falls on Brand Owners.....	58
4.	A KEY AND CENTRAL ROLE FOR PACKAGING / LABELS CONVERTERS & SECURITY PRINTERS IN BRAND PROTECTION.....	60
4.1	Leading Companies - Packaging / Label Converters.....	60
4.2	Leading Companies - Security Printers	62
4.3	Overview - Packaging / Label Converters, Security Printers - Tags and other Form Factors.....	63
4.3.1	Adapting Paper Labels.....	63
4.3.2	Using Swing Tickets and Hang Tags.....	63
4.3.3	Adapting primary packaging and adding tear tapes.....	64
4.3.4	Applying labels to clothing, footwear and textile products	64
4.3.5	Security labelling (base) materials.....	65
4.3.6	Security packaging (and cap sealing) materials.....	67
4.3.7	Security tags and swing tickets.....	67
4.3.8	Security materials for clothing, textiles and footwear	67
4.3.9	Security materials for use in the food and beverage sector	68
4.4	Marking of Products / Packaging / Labels	69
4.4.1	Forensic (invisible) marking methods and compounds for products and components	69
4.4.2	Marking liquids, powders and bulk materials	69
4.4.3	Direct Visible Marking methods	70
4.4.4	Materials that can be utilised to carry authenticity marks and messages	70
4.4.5	On product marking to aid verification	71
4.4.6	Ink jet marking.....	71
4.4.7	Transfer ribbon marking.....	71
4.4.8	Laser encoding – on product and ink activated.....	71
4.4.9	Linking serial marking to authentication databases.....	72
4.4.10	Product marking with encrypted (2D) bar codes.....	72
4.4.11	The Move to Digital Print and Brand Protection	72
4.5	Brand Protection Technologies / Packaging Formats - Compatibility	75
4.6	Trends - Packaging / Label Converters and Security Printers.....	76
4.6.1	Developments in Security Labels and Materials	76
4.6.2	Trends in Security Printing	77
5.	SECURITY TECHNOLOGIES & MATERIALS.....	78
5.1	Mass serialisation / Coding Systems	78
5.1.1	Leading Companies - Mass serialisation / Coding Systems	79
5.1.2	Leading Companies - Hidden Image Technology (HIT).....	80
5.1.3	Leading Companies - Digital Watermarking and Covert Codes.....	80

Brand Protection & Tamper Evident Solutions - Companies & Technologies

5.1.4	Leading Companies - Surface Feature Authentication (SFA).....	81
5.1.5	Overview - Mass serialisation / Coding Systems	81
5.1.6	Trends - Mass serialisation / Coding Systems	86
5.2	Security Optical / Holographic Devices & Materials Producers - OVIDS / DOVIDS.....	88
5.2.1	Leading Companies – Security Optical / Holographic Devices & Materials Producers	88
5.2.2	Overview – Security Optical / Holographic Devices & Materials Producers	88
5.2.3	Trends – Security Optical / Holographic Devices & Materials Producers.....	92
5.3	Security Inks, Coatings, Pigments & Dyes for Brand Protection	93
5.3.1	Leading Companies - Security Inks, Coatings, Pigments & Dyes for Brand Protection	93
5.3.2	Overview - Security Inks, Coatings, Pigments & Dyes for Brand Protection	94
5.3.3	Trends - Security Inks, Coatings, Pigments & Dyes for Brand Protection.....	96
5.4	Materials for Packaging / Labels	97
5.4.1	Leading Companies - Materials for Packaging / Labels	97
5.4.2	Leading Companies - Films and overlays (includes polarisers) / Polarising Filter technology.....	98
5.4.3	Overview - Materials for Packaging / Labels	98
5.4.4	Trends - Materials for Packaging / Labels	100
5.5	Forensic Markers / Nano-tagants / Chemical and Molecular Coding.....	101
5.5.1	Leading Companies - Forensic Markers / Nano-tagants / Chemical and Molecular Coding ...	101
5.5.2	Overview - Forensic Markers / Nano-tagants / Chemical and Molecular Coding	102
5.5.3	Trends - Forensic Markers / Nano-tagants / Chemical and Molecular Coding.....	104
5.6	Analysis of Track & Trace Products Used for Authentication and Identification.....	105
6.	MULTI-FUNCTIONAL RFID/NFC & EAS IN BRAND PROTECTION & ANTI-THEFT.....	106
6.1	Types of RFID (Chip-based RFID Solutions, Printed RFID Solutions, Chip-less).....	106
6.2	Levels of Defense Achievable with RFID.....	107
6.3	Leading Companies RFID (incl. NFC) & EAS.....	107
6.4	Overview – RFID	109
6.4.1	Unique Identification with RFID	109
6.4.2	Track, Trace & ‘Authenticate’ with RFID	109
6.4.3	Multi-functionality – A Key Factor in Mitigating relatively high cost of RFID.....	110
6.4.4	Crypto RFID Tags – Unclonable	110
6.4.5	Privacy – A Built in Self-Destruct Feature.....	111
6.4.6	Printed RFID.....	112
6.4.7	Singulation (Anti-Collision) / Capabilities – RFID.....	114
6.4.8	Read Range Considerations for Brand Protection.....	114
6.4.9	Chipless RFID	116
6.4.10	Characteristics of the Ideal RFID Solution for Brand Protection.....	116
6.4.11	Case Study - RFID Hang Tag	117
6.4.12	Trends in RFID.....	118
6.5	Overview – EAS – Electronic Article Surveillance (Anti-Theft) Tag / Labels.....	119
6.5.1	Overview of Anti-theft EAS tags and systems	119
6.5.2	Radio Frequency EAS Tags.....	120

Brand Protection & Tamper Evident Solutions - Companies & Technologies

6.5.3	Acousto-magnetic EAS Tags	121
6.5.4	Electromagnetic EAS Tags	122
6.6	Trends in EAS - Hybrid RFID based EAS Tags	123
6.6.1	Multi-Functionality – A Key Factor in Mitigating relatively high unit cost of RFID.....	123
6.6.2	EAS as an integrated function in an RFID Tag in Brand Protection Applications.....	123
6.6.3	Trends in RFID based EAS.....	124
6.6.4	Case Study - Adoption of RFID / EAS Hybrid Tags by German Apparel Retailer Gerry Weber ..	124
6.6.5	Driving down Unit Cost with Multi-Functionality.....	127
6.6.6	NFC (Near Field Communications) - A key enabler of new applications	128
7.	END USER ENABLED AUTHENTICATION WITH SMART PHONES – 2D BARCODES OR RFID?	129
7.1	Leading Companies - End User Enabled Authentication with Smart Phones	129
7.2	Overview – End User Enabled Authentication with Smart Phones	129
7.2.1	RFID versus Printed 2D / Matrix Digital Codes for Smart Phone Applications	131
7.2.2	Serialisation Formats.....	132
7.2.3	NFC Technology.....	134
7.2.4	Nokia Case Study	135
7.2.5	Case Study - Towards Consumer self-authentication of products at retail, including Wine.....	136
7.2.6	High density 2D / Matrix bar codes for Product Authentication with Smart Phones	139
7.3	Strategic Implications - Low Hanging Fruit versus Killer Applications	144
8.	TAMPER EVIDENT SOLUTIONS	145
8.1	Types of Tamper Evident Solutions.....	145
8.1.1	Tamper Evident Caps & Closures.....	146
8.1.2	Shrink Sleeves.....	146
8.1.3	Tamper Evident Labels	147
8.1.4	Security Label Substrates	150
8.1.5	Other Tamper Evident Packaging / Labels Formats	152
8.1.6	Tamper Evidence with RFID - Physical Removal / Digital Attacks	154
9.	COMBATTING SOARING GROWTH IN INTERNET RELATED PRODUCT CRIME - MONITORING SERVICES THAT PROTECT BRANDS ON-LINE	156
9.1	Leading Companies - On-line internet brand protection services.....	156
9.2	On-line (Internet) - Threats & Crimes.....	157
9.3	Attractions of the Internet for Counterfeiters.....	157
9.4	Major types of ‘on-line’ branded product related crime - A new vocabulary is emerging	158
9.5	On-line (Internet) - Brand Protection.....	160

10. MARKET SIZING & FORECASTS – BRAND PROTECTION SOLUTIONS & PRODUCT RELATED CRIME.....	162
10.1 Financial Losses due to Product Related Crime	162
10.2 Evolution of the World Market for Brand Protection Solutions.....	163
10.3 Brand Protection Solutions & Value Added Processes.....	164
10.4 Value Added in Brand Protection – Label / Packaging Converters & Security Printers.....	166
10.5 Breakdown of Markets by Brand Protection Technologies (excl. EAS & Tamper Evidence) in 2010	167
10.6 The Value Chain and Pricing Issues.....	168
10.7 Forecast Annual Growth Rates for Leading Security Technologies	169
10.8 Shrinkage – Shoplifting and Employee Theft	170
10.8.1 Spending on Loss Prevention and Security Measures	170
10.8.2 Trends in Shrinkage	171
10.9 Relative Cost and Level Security Compared – Types of Authentication Device	172
10.10 Comparative Costs / Item Protected – Different Types of Brand Protection Technology	174
