## **Interpack Innovations Report Actionable Insights & Opportunities 2008-2011**

Packaging professionals seeking to bridge the gap between packaging technology, process, and service innovations displayed at the triennial 2008 Interpack Fair in Germany, can reference the hot-selling Interpack Innovations Report now being offered at an attractive price.

The **Interpack Innovations Report: Actionable Insights & Opportunities – 2008 – 2011**, is 130 pages loaded with profiling of the 100 unique package technology, process, and service innovations presented at the Fair. Each profiled innovation has been vetted by the Interpack Innovations Team from Packaging & Technology Integrated Solutions. This team was lead by PTIS principles Dr. Mike Richmond and Brian Wagner, and included two Packaging Hall of Fame members.

### **What This Innovations Report Offers:**

- *Profiles detailing incremental, discontinuous, and disruptive package technology, process, and service innovations. The selected technologies were culled and qualified from among the thousands of general package technology offerings displayed by the 2,744 exhibitors using a unique Innovation Ratings Scale.*
- *A variety of supporting documentation, including illustrations, photographs, industry trends data, and video interviews available for downloadable viewing.*
- *Insights & Analysis: Adding even greater value to this competitive information report is its thoughtfully crafted Insights & Analyses. The Interpack Innovations Team has put the technologies in context with retail, consumer, and supply chain trends issues, challenges, and opportunities in a way that enables readers to take action.*
